

POF Shrink Roll

POF Shrink Roll Sometimes just covering of product is not enough. We might need some extra security from outer environmental agents for our products.

When air-tight fully vacuumed covering of product is necessity our POF Shrink Roll are one best solution. This is pre-perforated PVC Shrink Roll which release all the air outer side during packaging of product. Tiny holes on Shrink Roll Save air to lock between roll layers and keep it product un-touched from outer environment.

When products made from steel and metals needs to transport through difficult whether, covering of POF Shrink Roll are perfect tool to go with. It's not only limited to steel and metals products but it can go with any product which is whether sensitive and not able to survive in contact with atmospheric agents.

Who are We?

We are accomplished PVC films manufacturer dealing in wide variety of shrink films, PVC shrink Roll, PVC packaging films, shrink packing Sleeves, Printed PVC Shrink films etc. These shrink films manufactured by us are crystal clear and provide dust-free protection. Their easy application and fast shrinking reduces energy consumption in the packaging process. Our crystal clear PVC shrink films, PVC packaging films are suitable for stationary, food, video/audio tapes, gifts, etc. We provide specialized color-tinted gift shrinks for gift baskets. Our PVC Shrink films are used for packaging various products.

Salient Features of PVC Shrink Films:

- Excellent Transparency
- High Shrinking Capability at lower temperature
- Resistance to Moisture / Oil
- Good Mechanical Properties
- Excellent Electrical Insulation Properties
- Excellent Printability

Besides decorating the bottle/container, it provides glossy look to the product due to excellent quality of the Sleeve compared to conventional type of paper-labels.

It can be used with automatic and manual operation. In case of high-speed operations, to achieve better productivity, these sleeves can also be placed on the object with the help of automatic shrink sleeve applicator machine. In this case, the sleeves can be supplied in continuous length to suit the operations.

Applications:

- The PVC shrink films are used for labeling and packing products in various industries like....
- Food & beverage industries: Mineral Water, Soft Drinks, Liquors, Pickles, Jams, Jellies, Fruit Juices, Tea, Coffee, Spices, Ghee, Edible Oils etc.
- In Bottles/Cans/Jars Printing & Packaging industries
- Cosmetic & Toiletry industries: Powder, Perfume, Hair Oil, Shampoo etc. in bottles & jars
- Pharmaceutical industries: Liquid Bottles, Tablet/Powder Containers & Jars
- Electrical industries Stationery & Writing instrument industries

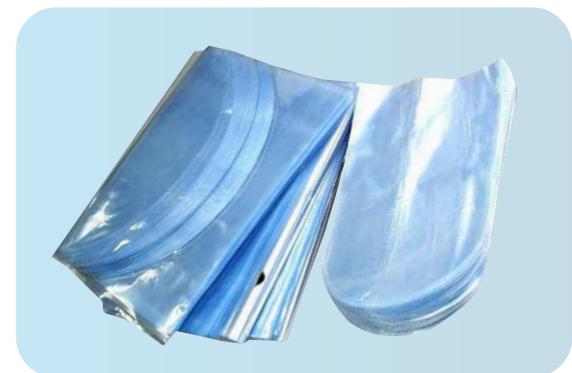

Our Products

PVC Shrink Roll

While Transporting products or storing it for long time one thing always made worries is whether or outer entity's affection on product which eventually lead to damage or reduced in product quality. Our Tested, Highly efficient and cost effective PVC Shrink Roll is perfect solution of this problem. With Fine finishing, good strength and whether resistance our PVC Shrink Roll are must have tool for securing your product from atmospheric agents. Now we are not only providing simple transparent PVC Shrink Rolls but now it's also available in custom designs as per clients requirement.

PVC Shrink Cutting

PVC Shrink Cuttings are very useful when it comes to carry tiny but important tools like stationary product, paint brush, automobile products and tools like screw and nut balls. Tiny things are always risky to carry in bag or pocket, high chances of getting hurt or damage in bag. PVC Shrink Cutting are perfect solution to save from sharp edges and pointed ends.

PVC Shrink Label

Simple sticker are mostly not usable for long term when it's come to labeling product. Our PVC Shrink label are great in quality and build to last long. Any cosmetic product, Edible liquids, Herbs products or any food product packaging we have got a attractive PVC Shrink labels to show case product details on it. It is available in custom shape as per clients requirements.

PVC Shrink Pouch

Not all the time requirements are clear, some time carrying many different products make it difficult to choose right safety of product. Our PVC Shrink Pouch are one solution for that problems. PVC Shrink Pouch are useful to carry stationary, food, automobile, chemical, agriculture any many more products. Most great thing about PVC Shrink Pouch is that they are re-usable for many time. Using it for different products at different time make it completely suitable for having. When product description is not clear PVC Shrink Pouch is first choice to have. Another advantage of this PVC Shrink Pouch is that now it's also available in printed form to give it a new look and feel or to give more security to product by day-light and whether condition. Labelling become easy with Printed PVC Shrink Pouch.
