PVC shrink label grade film

Mic:- 30 mic to 60mic

Size:- 100mm to 700mm (as per customer requirements)

Who We Are

Established in 1995, Vikas Pack Plast is one of Gujarat's pioneering companies in the field of shrink packaging solutions. With decades of experience, we have built a strong reputation for quality, consistency, and reliability.

We are manufacturers of PVC Shrink Films and LD Stretch Films, delivering high-performance packaging solutions across various industries.

With manufacturing units in Jetpur (Rajkot) and Vadodara, we ensure consistent production and timely delivery.

Group Companies:

Nova Pack Film

Vikas Polyshrink

PVC SHRINK FILM ROLLS

Packaging Challenge:

Products may get exposed to dust, moisture, and handling damage during storage and transport.

Our Solution:

PVC Shrink Film Rolls provide a tight protective layer that keeps products safe and intact.

Product Highlights:

- High clarity for better visibility
- Strong and uniform shrink
- Smooth sealing performance
- Suitable for manual & automatic use

Applications:

- Cartons & boxes
- General product bundling
- Industrial packaging

PVC SHRINK CUTTING

Packaging Challenge:

Small products are difficult to handle and pack safely.

Our Solution:

Pre-sized shrink cutting simplifies packaging and improves efficiency.

Product Highlights:

- Ready-to-use sizes
- Reduces wastage
- Easy handling
- Saves time

Applications:

- Stationery products
- Small tools & parts
- Retail packaging

after

PVC SHRINK POUCH

Packaging Challenge:

Different shaped products are difficult to pack uniformly.

Our Solution:

Shrink pouches provide flexible and secure packaging for various products.

Product Highlights:

- Easy to use
- Clean shrink finish
- Suitable for different shapes
- Available in printed form

Applications:

- Food products (dry fruits, sweets, chocolate boxes, gruh-udhyog items)
- Combo packaging
- General packaging

PVC SHRINK SLEEVES

Packaging Challenge:

Loose caps and open neck areas can lead to leakage or tampering.

Our Solution:

Shrink sleeves are used for neck sealing of bottles and jars, ensuring product safety.

Product Highlights:

- Perfect for neck sealing
- Strong shrink grip
- Clean finish
- Available in V, C, D, U shapes

Applications:

- Bottle neck sealing
- Jar neck sealing
- Cap sealing

PRINTED SHRINK SLEEVES

Packaging Challenge:

Products lack identity without proper branding.

Our Solution:

Printed sleeves provide brand name and product-specific printing directly on packaging.

Product Highlights:

- 6-color rotogravure & flexo printing
- Brand name printing
- Product name printing
- Durable print finish

Applications:

- Brand identification
- Product labeling
- Custom packaging

LABEL GRADE PVC SHRINK

Packaging Challenge:

Labels fail to maintain durability and finish over time.

Our Solution:

Label-grade shrink films ensure strong, clear, and long-lasting labeling.

Product Highlights:

- High print compatibility
- Excellent transparency
- Strong shrink hold
- Clean finish
